SUMMARY

I am a dedicated Mechatronics Engineer with 2 years of experience, now specializing as a QA Test Engineer. After working in mechatronics, I transitioned to the IT sector, where I found my passion for software testing. With 1+ year of experience as a Manual and Automation Tester, I have gained proficiency in testing frameworks and tools. My background in engineering enhances my analytical and problem-solving skills, which I now apply to delivering high-quality, end-to-end IT solutions. I am eager to continue learning and growing in a challenging environment that supports my development as a Software Test Engineer.

EXPERIENCE

Software Test Engineer, 09/2023 - Current
Pureitcon

Turbo Transit Cargo Project

- Conducted comprehensive manual and automated testing for a global cargo platform utilizing the **JUnit** and **Cucumber** framework, with a strong focus on **End-to-End (E2E)** and **Smoke** testing to ensure platform reliability
- **API** tests were done by writing **scripts in Postman**, and these were automated using **RestAssured** library in **Selenium**.
- Backend tests were done by writing **SQL** queries using **MySQL** and **JDBC**.
- **UI** tests were also performed on the mobile application via **Appium** and **Android Studio**.
- Collaborated closely with the QA team to ensure seamless deployment, identifying and addressing potential issues before release
- Used **Jira** and **Jira-Xray** to collaborate and track bugs
- Developed detailed documentation outlining test processes, automation methodologies, and best practices to enhance team knowledge and project efficiency
- Used **Agile** methodologies to aid team delivery of effective, quality software solutions.

Mechatronics Engineer, 09/2021 - 06/2023
SER Mekatronik

- Plan and design the electrical parts of the textile machines being manufactured and to check the accuracy of their connections in the field
- Performed **manual tests** for electrical connections and checked their suitability for the circuits and elements in the project.
- Provide voluntary support to my supervisor in editing the PLC program installed on the machines

EDUCATION

Mechatronics Engineering, 08/2021
Manisa Celal Bayar University - Manisa, Turkiye
GPA: 3.15

Computer / Electrical Engineering, 05/2020
Salerno University - Salerno, Italy
ERASMUS Programme

LANGUAGES

Turkish: First Language

English:  B1

Italian:  A1

SKILLS

Testing Methodologies

- Manuel Testing
- Automated Testing
- Functional Testing
- Blackbox Testing

Languages

- Java(OOP Consept)
- Gherkin
- SQL

Testing Frameworks

- Selenium Webdriver
- Cucumber BDD
- JUnit
- TestNG
- Appium

Project Build Tools

- Maven
- POM

CI-/CD Tools

- Jenkins
- Selenium Grid

Other Tools

- MySQL
- Postman

Version Control Systems

- Git
- GitHub

Enviromensts

- STLC
- SDLC
- Waterfall
- Agile
- Scrum Methodologies

Project Management Tools

- Jira
- Jira-XRay
- Trello

Reporting Tools

- Cucumber
- Extends Reports
- Allure Reports
